

# VGA/Component Video/HDMI Scaler/Converter

## VIDEO CONVERTERS

**Upscale HDMI, component video or VGA signals up to 1920x1200 resolution (WUXGA). Convert component video or VGA, with audio, to HDMI with integrated audio**

- Play computer audio and video on your HDMI equipped HDTV.
- Supports HDTV resolutions up to 1080p and computer resolutions up to 1920x1200 (WUXGA).
- Automatically detects input resolution.
- Output resolution can be selected from the OSD menu or front panel buttons.
- OSD menu allows you to control color, resolution, brightness, contrast and horizontal/vertical picture adjustment.
- HDMI input and output are both HDCP compliant.
- Ideal for viewing video from standard definition sources, such as cable or satellite receivers, on a high definition television or projector.

**PCHD-HDMI-SCALER (Front & Back + Remote)**

The VGA/Component Video/HDMI Scaler/Converter upscales HDMI, VGA or component video signals up to 1920x1200 video resolution (WUXGA). It also converts component video or VGA, with audio, to a single HDMI stream with integrated audio.
