Drive up to 4 displays from one DVI video source up to 3,280 ft (1,000 meters)

- Broadcast real-time DVI video to multiple display locations.
- Supports crisp and clear resolutions to 1920x1200.
- Signal transmission via single-strand 50-micron multimode SC fiber optic cable – no RF interference.
- Compact design of transmitter and receivers allows for direct connection to source/displays.
- Cables can be installed in conduit prior to transmitter/receiver installation.
- EDID learning for the support of any DVI display device.
- Complies with DVI 1.0 standard.
- No power supply required for the optical splitter or transmitter.
- Integrated mounting brackets on the optical splitter for easy surface/wall mounting.
- Ideal solution for digital signage applications.

The VOPEX® DVI Splitter/Extender simultaneously distributes high resolution DVI video to up to four displays up to 3,280 feet (1,000 meters) from a DVI computer using a single-strand SC multimode fiber optic cable. The VOPEX system consists of three components: the optical splitter, which connects to the transmitter and receivers; the transmitter, which connects to the host DVI video source; and a receiver for each remote DVI display. The units are interconnected by a simplex 50-micron multimode SC fiber optic cable.

### Specifications

#### Optical Splitter
- **Connectors**: Five SC fiber connectors
- **Cables**: Use a FIBER-S-SCSC-50-xM simplex 50-micron multimode SC fiber optic cable to extend the receiver from the transmitter up to 3,280 feet (1,000 meters).
- **Power**: Powered from video source connected to transmitter.
- **Dimensions**: WxDxH: 6.42x4.76x1.09 in (163x121x28 mm)
- **Environmental**: Operating temperature: -40 to 185°F (-40 to 85°C)
- **Regulatory Approvals**: RoHS
- **Warranty**: Two years

#### Distances & Resolutions

</tbody>
</table>

#### Transmitter and Receivers
- **Connectors**: (for transmitter and receivers): one male DVI-D single link connector and one SC fiber connector.
- **Cables**: Supports resolutions up to 1920x1200 (WUXGA); refer to the resolution chart below for resolutions at different lengths.
- **Power**: Local unit: powered from attached video source.
- **Dimensions**: WxDxH: 1.57x2.64x0.59 in (40x67x15 mm)
- **Environmental**: Operating temperature: 32 to 122°F (0 to 50°C).
- **Regulatory Approval**: CE, FCC, RoHS
- **Warranty**: Two years
