

Management Software for Low-Cost Environment Monitoring Systems ENVIROMUX®

Optional Management Software for ENVIROMUX-MICRO-T, ENVIROMUX-MICRO-TRHP, and ENVIROMUX-1W (Coming Soon).

- Intuitive graphical management software provides an easy-to-use, unified interface for both monitoring and configuring up to 3,000 ENVIROMUX-MICRO-T, ENVIROMUX-MICRO-TRHP, and ENVIROMUX-1W (Coming Soon) units and all connected sensors via Ethernet.
- Units may be monitored and configured individually or in a group.
 - Changes can be pushed to all units in a group at once.
 - ◆ E.g. new users, mail server, network settings, security settings, system settings, etc.
- Display values and status for individual sensors or list of sensors.
- Scrolling sensor summary pages can include selected sensors from a specific unit, all units, or a pre-configured group of units.
 - Filter specific sensors from multiple units for close monitoring.
- Sensor history graph shows readings from up to the last 120 days.
- Client/server architecture
 - Server application actively polls all units for status information as well as listen for alerts from all units.
 - Client application communicates with the server to read statuses and to deploy configuration changes.
- Multiplatform support: Windows XP/Vista/7/8/10, Windows Server 2000/2003/2008/2012, Solaris, Linux, FreeBSD, and MAC OS 9/10.
- Requires Java Runtime Environment 1.7 or later.
- NTI will provide customer, without charge, copies of any appropriate updates/enhancements for 12 months. This software update service is optionally extendable every twelve months for 20% of list price.
