ST-C 64K - HDBT-L8-R
8 HDMI over CAT5e/6/7
Point-to-Point Transmitter

Operation Manual
SAFETY PRECAUTIONS

Please read all instructions before attempting to unpack, install or operate this equipment and before connecting the power supply.

Please keep the following in mind as you unpack and install this equipment:

- Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
- To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
- Never spill liquid of any kind on or into this product.
- Never push an object of any kind into this product through any openings or empty slots in the unit, as you may damage parts inside the unit.
- Do not attach the power supply cabling to building surfaces.
- Use only the supplied power supply unit (PSU). Do not use the PSU if it is damaged.
- Do not allow anything to rest on the power cabling or allow any weight to be placed upon it or any person walk on it.
- To protect the unit from overheating, do not block any vents or openings in the unit housing that provide ventilation and allow for sufficient space for air to circulate around the unit.

8. Specifications ................................. 7  
9. Mounting ................................. 8
1. INTRODUCTION
The 8 HDMI over CAT5e/6/7 Point-to-Point Transmitter supports the transmission of uncompressed video (up to 1080p@60 Hz/36-bit) with multichannel digital audio from up to eight high definition sources to up to eight CAT6 outputs. Also, the unit can be used in conjunction with the 8x8 HDMI matrix (optional) to provide switching control, allowing the display of any source device on any output display.

2. APPLICATIONS
• Commercial advertising and display
• Lecture room display
• Hyper market demonstration

3. PACKAGE CONTENTS
• HDMI over CAT6 Transmitter
• 1x24V/6.25 A DC Adaptor
• Rack Mounting Bracket (x2)
• Operation Manual

4. SYSTEM REQUIREMENTS
• HDMI equipped input source devices
• Industry standard CAT5e/6/7 cables
5. FEATURES

- HDMI, HDCP 1.1 and DVI compliant
- Supports HDMI 3D and 4K×2K features
- Support CEC bypass
- Supports PoE (Power over Ethernet) on compatible receivers only
- Supports audio up to 7.1Ch, Dolby TrueHD and DTS-HD Master Audio
- Supports high bit-rate audio up to 192kHz
- Supports resolutions VGA~WUXGA and 480i~1080p dependent upon the output display's EDID settings
- Supports uncompressed video up to 1080p@60 Hz/36-bit
- Supports extension up to 100 meters through CAT5e/6/7
- Supports 3D signal display dependent upon the output display's EDID settings
- Supports HDMI input up to 10 meters at 8-bit resolution or 6 meters at 12-bit resolution
- 1U size design

Note: The PoE function is designed for powering compatible receiver units only—non-PoE receivers will need their own power supply. Receivers of another brand may not be compatible.
6. OPERATION CONTROLS AND FUNCTIONS

6.1 Front Panel

1 **POWER**

The LED will illuminate in blue when the power is on.
6.2 Rear Panel

1 CAT Out

Connect to the Receiver units with a single CAT5e/6/7 cable for HDMI Audio/Video, IR, and RS-232 signals transmission.

Note: Please do not miss connect CAT5e/6/7 ports with receiver device's LAN port doing so will destroy the device.

2 HDMI In 1~8

Connect to the HDMI input source devices such as a DVD player or a Set-top Box with HDMI cables or DVI to HDMI cables.

3 DC 24V

Plug the 24V DC power supply into the unit and connect the adaptor to an AC outlet. This unit will also power PoE (Power over Ethernet) capable receiver units or non PoE receiver units.

9. Mounting Ears

The ST-C64K-HDBT-L8-R includes two ears for mounting to a rack.

There are two screws on each side of the ST-C64K-HDBT-L8-R for mounting these ears.

Remove the screws, place the ear, and reinstall the screws.

Mount the ears facing the front........

........or facing the rear.
